

# Canute Class

## Forest School Newsletter 3

Thursday 7<sup>th</sup> May 2015

Another fantastic time was had over at our forest school classroom this week! The wind blew, but the sun also shone so we were able to keep warm out of the breeze and by keeping busy.

### Our goals for the morning

- To keep ourselves and each other safe
- To work as a team
- To take care of the environment
- To learn from nature

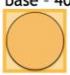

### Our activities

There were lots activities to take part in again this week. These included listening to signals and responding, creating posies of leaves, grass and wild flowers to decorate the trees and making woodland pizzas and working out the cost of them.

### What we learned

- To always keep in our minds the rules that keep us safe.
- To support each other by listening and sharing ideas
- To protect our environment from damage and harm
- That things in the environment change at different speeds and times.
- To solve mathematical problems involving money.

Pizza Base	Toppings
Pizza base - 40p 	Pine needles - 2p 
Mud sauce - 25p 	Twigs - 3p 
Soil sprinkles - 20p 	Blade of grass - 1p 
	Fir cones - 5p 

### Next week

Our fourth session will take place in the afternoon of Monday 18<sup>th</sup> May. There will be no Forest School on Wednesday 13<sup>th</sup> May

### Remember for next time...

Children all need a change of clothing and shoes for our forest school sessions please.
